

FAQs – NEET Nurture Online Program: Target 2026

Q. Which students is this course intended for?

This course is specifically designed for students, currently in Class 10 and will transition to Class 11 in the 2024–25 session.

Q. What is the target exam for this course?

The target exam for this course is NEET-UG (2026).

Q. Will the entire syllabus of the NEET–UG Examination be covered?

No, we will cover only the Class 11 syllabus for all three subjects, in line with the latest NEET-UG syllabus, through live classes.

Q. What content deliverables are provided for each chapter?

Each chapter is divided into various subtopics and every lecture explains these subtopics through live sessions. Class handouts in PDF format will be provided for each subtopic. Additionally, live lectures will include Practice Questions with varying difficulty levels. At the end of each chapter, three exercises are offered:

- Exercise 1– contains questions based on the chapter
- Exercise 2– includes the previous year's questions (PYQs) from the NEET-UG Exam
- Exercise 3 –consists of various question types, such as statement-based, assertion & reasons, and matching columns

We also provide add-on materials, including RACE, NCR, and Extra-Edge materials.

– RACE: Relevant chapter-wise questions for NEET (excluding modules)

–NCR: Chapter-wise questions with complete consideration of NCERT

–Extra-Edge: Questions that integrate multiple concepts (NEET level)

Q. Will answers & solutions be provided for all study material questions?

Yes, detailed solutions in both text and video formats will be provided for all questions in Exercises 1, 2 and 3, as well as for the add-on materials. Only soft copies of text solutions will be provided.

Q. Will hard copies of the study materials be provided?

Yes, hard copies and soft copies (downloadable & printable) of the entire class 11 syllabus, including Physics, Chemistry, and Biology, as per the latest NEET-UG pattern, will be provided. There will be three main modules for Physics & Chemistry and five main modules for Biology.

Q. How many classes will be conducted per week, and what will be their duration?

For English + Hindi Courses:

We will conduct 2–3 classes daily, 5–6 days a week, each class lasting 65 minutes, with a 15–minute break.

For English Courses:

We will conduct two classes daily, from Monday to Friday, each lasting 85 minutes, with a 10–minute break.

Q. What will be the class timings?

For English + Hindi Courses:

Classes will be held in the evening, tentatively from 4:30 PM to 8:15 PM.

For English Courses:

Classes will be held in the evening, tentatively from 5:20 PM to 8:20 PM

Q. What language will be used in live classes & study materials?

For English + Hindi courses: Live classes will be conducted in bilingual mode (English + Hindi), while study materials will be developed in English.

For English Courses: Live classes will be conducted in English and the study materials will also be developed in English.

Q. How can students resolve their doubts?

Since all the classes will be live, doubts will be discussed in the class itself. However, if the doubt persists or any new doubt arises, students can post their doubts on the ALLEN app.

Q. Will recordings of the LIVE classes be available for viewing? For how long will the recordings be accessible?

Yes, the recordings will be available for the duration of the course validity i.e. till 31st March 2025. Also, if the student continues with us for the Enthusiast Online Program, then as a beneficiary, the class 11th recording will be available for next year.

Q. Will the live lectures and study materials be available on both the App and Website?

Yes, the live lectures and study materials will be accessible on both the App and Website.

Q. How many tests will be conducted throughout the course?

We will conduct approximately 10 Minor, 2 Semi-Major, and 10 Major Tests in compliance with the latest NEET-UG exam. The detailed schedule will be shared upon enrollment in this course.

Q. What will be the mode of the tests?

Each test will be conducted in live (online) mode. After the test, the question paper and the solutions will be available in downloadable and printable format on the ALLEN app.

Q. How can students check their test performance?

In the SPR (Student Performance Report) section, students will find key details regarding their performance, allowing them to track their progress, identify strengths, and focus on areas that need more attention.

Q. Will students receive mentorship in this course?

Yes, mentorship will be provided as a part of this program.

Q. Will students receive academic guidance/assistance?

Yes, students will receive academic guidance and assistance until the target exam is conducted through various sessions focusing on improving scores, revision strategies, exam paper attempts, and parent-teacher meetings.

Q. What is the expected completion date of the syllabus?

The syllabus is tentatively expected to be completed before January ends.

Q. What are the benefits of enrolling in this course?

This course provides an excellent opportunity to start early to build a strong foundation in Class 11th concepts as per the NEET-UG exam syllabus, allowing ample time for practice and revision. It offers the perfect blend of a meticulously designed curriculum and interactive live lectures enriched with animations & graphics to keep learning engaging & easier. A comprehensive support system includes doubt-solving assistance, multiple tests & SPR for performance tracking, and 24x7 accessibility to the user-friendly web platform and AI-powered ALLEN app. Additionally, mentorship sessions for effective test-attempting strategies and regular parent-teacher meetings help in optimizing students' success in the NEET-UG exam.
